Construction drawing test

Use S Pen / calibrate / measure / export

Calibrate using the 300pt blue line and enter 5.0 m.

Then measure the 150pt orange line: expected 2.50 m.

Text and annotation test

Add stamps, highlights and color-coded notes

Inspection notes

A-01	Inspect cast-in-place concrete surface.
A-02	Confirm wall openings before pouring.
A-03	Verify quantities against specification.
A-04	Add a handwritten signature using the S Pen.
A-05	Place a photo and export a flattened PDF copy.

Blank space for handwritten comments:

Raster scan stress test

Large bitmap with no selectable PDF text
